

Printing Adobe Document Service

Printing Adobe Document Service - How-to guide. How to print to PDF in Windows: Open a file in a Windows application. Choose File > Print. Choose Adobe PDF as the printer in the Print dialog box. Click Print. Click OK, name the PDF file, and save it in a desired location. From the HP Smart app home screen, click the Print tile, and then click Print Document. Locate the pdf file in the Documents folder, or browse to another folder where the file was saved. Select the pdf file you want, and then click Print. A preview of the print job displays in the Print Preview window. Two other documents provide troubleshooting suggestions: [Resolve issues when configuring your printer](#) or [Printing complex PDFs | Acrobat](#). For tips on using the Print dialog box (such as printing back-to-back, resizing pages to fit the paper, or printing comments), see [Printing tips \(Acrobat X and earlier\)](#). Print a selected portion of the PDF and scale it using Fit to Printable Area. See [Print a portion of a page. \(Acrobat only\)](#) To change the font size for a specific page or the entire document, use the Edit Document Text tool (Acrobat X) or TouchUp Text tool (Acrobat 9). To learn more, see [Edit text](#).
